DESIGN  GROUP

Our compact digital/analogue audio recording & multi-media suite an affordable way to create your eFlic interactive advertising, voice-overs and soundtracks.

Formed in 1980, Moondog Audio Recording has evolved from an analogue 16-track facility to a analogue/digital studio specializing in small music projects, voiceovers, and soundtracks for our eFlic multimedia advertising.

With an in-house composer, musicians and sound effects library, we are able to create audio tracks to enhance your interactive advertising.
